

**R**EGIONAL BANKS AND CREDIT UNIONS ARE the financial backbone of communities nationwide. They serve as vital engines at the local level as they support small businesses, fund projects and ensure easy access to essential banking services. With intimate knowledge of local economies, these banks often form strong bonds with customers, enabling them to better meet their needs. ★ Credit unions are operated as member-owned cooperatives, driven by a mission of service rather than profit. This approach often translates to lower fees, competitive loan rates and a genuine focus on member satisfaction. Credit unions serve as more than just financial institutions—they are partners in their neighborhoods, actively participating in local events and initiatives that strengthen bonds among members.

AMERICA'S BEST

★ To spotlight the banks and credit unions positively impacting their communities, *Newsweek* and Plant-A Insights Group are proud to present America's Best Regional Banks and Credit Unions 2025. ★ Our methodology utilized the Texas ratio (a measure of a bank's credit quality) as well as reviewed profitability; net loans and leases; press coverage over the past two years; and an elaborate large-scale independent customer survey of more than 71,000 U.S. citizens, 1.9 million social media reviews and 129 million Apple App store and Google Play store reviews. We then determined the top 500 regional banks and top 500 credit unions. ★ Companies highlighted include AAA Credit Union in South Bend, Indiana; Dairy State Bank in Rice Lake, Wisconsin; and TriState Capital Bank in Pittsburgh. ★ We hope this ranking helps you identify the most trusted financial institutions in your area for whatever personal and business projects you have planned. ▶ **Nancy Cooper**, *Global Editor in Chief*

## METHODOLOGY

**FOR THE SECOND YEAR, PLANT-A** Insights Group and *Newsweek* collaborated to identify America's Best Regional Banks and Credit Unions 2025. This study examined all regional banks and credit unions across the U.S. (about 9,170 institutions) using the following approach: To maintain a focus on regional banks and credit unions, we excluded nationwide banks. We applied a unique set of criteria to evaluate the remaining institutions. These parameters covered areas such as profitability, financial relevance, risk exposure to financial uncertainties and the general health and stability of each financial institution: Texas ratio, profitability, net loans and leases and media monitoring. The analysis was further supported by an extensive large-scale independent customer survey of over 71,000 U.S. residents. This survey aimed to capture their experiences across 12 categories using 52 items. Over 845,000 reviews of regional banks and credit unions were collected, spanning all states. In addition, more than 1.9 million social media reviews and 129 million app store reviews from Apple and Google Play were programmatically gathered to assist with the scoring. Only banks and credit unions that ranked in the top 50th percentile of scorers within their respective headquarter states were included in the list of ranked institutions.
